

Electric pallet truck

15EPML

Safety and productivity

- The machine is equipped with a removable Lithium-Ion battery (48 Volt / 20 Ah)
- The machine is supplied with a Lithium-Ion charging station
- The machine drives & lifts automatically / electrically
- AC technology offers excellent performance and low maintenance requirements (no carbon brushes)
- Battery removal system at the top to make it easy to replace the battery

Structural design

- The motor housing is resistant to dust and moisture
- Power resistant forks, welded type
- Balance wheel is floating type

Maintenance friendly

- Maintenance friendlier by using Lithium-Ion batteries
- Easy access to all parts as only one cover needs to be removed
- Maintenance friendly due to brushless motor

Specifications	
Lifting capacity	1,500 kg
Load centre	600 mm
Overall Fork Width / Length	Fork (WxL) 550 mm 1,220 mm Fork (WxL) 550 mm 1,150 mm Fork (WxL) 680 mm 1,150 mm Fork (WxL) 680 mm 1,220 mm
Drive wheel	195 mm x 70 mm
Double PU fork wheel	size: 82 mm x 98 mm
Li-Ion battery	48 Volt / 20 Ah
Standard equipment	Li-Ion charger, Direction switch indicator, Emergency switch, Ergonomic drawbar
Capacity drive motor	0.6 kW
